

Pricing Information

1. Provisions in 1424.8 (d) (2) (ii) (B) will apply for animal fats and oils, corn oil, cottonseed oil, and canola oil. Where the reported market price is for other than a crude oil, we will adjust it by the cents per pound difference in refined soybean oil versus crude soybean oil on the same date.
2. Mustard seed and safflower oil biodiesel production will be paid under provisions in 1424.8 (d) (2) (ii) (C)) since there are no established market prices. We have determined that they shall be paid as if the production was from soybeans under provisions in 1424.8 (d) (2) (ii) (A).
